### MEXIA EDITOR OFF TO BIG DEMO. POW WOW

A. Garland Adair, managing editor of The Daily News, left Friday morning for Dallas to join the Texas delegation to the Democratic national convention in New York next Tuesday to nominate the next president of the United States.

Mr. Adair's going was brought about by Judge W. C. Davis of Bryan failing to attend and sending his proxy to Mr. Adair, who thus becomes a regular delegate with a vote.

Mr. Adair will also be the personal representative of the Mexia Daily News and will furnish this paper with the real happenings of the "big affair" so if you see it in The News over Adair's signature, it is straight goods.

### Red Tape Causes Many Long Delays

FORT WORTH, Texas, June 20.—Red Tape, the familiar decoration of government circles, has kept John Taylor, one armed veteran of the Philippines campaign out of work for two years. Recently Taylor grew hot under the collar and wrote President Coolidge, telling him what he thought of the government's delay.

The other day this letter topped a heap of correspondence, covering two years, was received by the U. S. Farm Labor Bureau here. Taylor is right where he started.

And to make it worse, he has a wife and two daughters to support. The red tape is proving an effective barrier to his getting a government job of some sort, says Taylor.

### FIST FIGHT BETWEEN MEN HIGH UP ENLIVENS GOLF GAME AT NATIONAL CAPITAL. FORE! FORE!

WASHINGTON, June 20.—A fist encounter between Senator Joe Robinson, of Arkansas, minority leader in the Senate and Dr. James F. Mitchell, nationally known surgeon on the Chevy Chase club golf links has all Washington agog.

Robinson won by a knock down. Only one blow was exchanged, the one by which the statesman felled the physician.

Neither party was communicative about it today. Robinson said "the incident is to be regretted," while Mitchell would say nothing at all.

The clash occurred late yesterday when a three-some composed of Mitchell, Colonel Edward Clifford, former assistant secretary of the treasury, and his son, "passed thru" a four-some made up of Robinson and Senators Tom Walsh of Montana, Jones of New Mexico and Kendrick of Wyoming, all Democrats.

Walsh had lost a ball and four Senators were searching for it when Mitchell and his party demanded the right to drive through adding some comments about the senatorial game.

When the two parties reached the next tee, Dr. Mitchell, it is said, apologized for being rough or hasty about demanding the right of way, but again made references to the slowness of the senatorial party.

At the next tee, however, the quarrel broke out again and Robinson said: "If you don't stop, I shall hit you." Mitchell is reported as having laughed at this, whereupon Robinson a huge man, swung on Mitchell and followed his punch up by grappling with him, driving Mitchell to the ground.

"Sure" said Hood. "Where is it?" One of the women produced a box containing six grains of morphine, and the other brought forth a needle, melting spoon, and the rest of the paraphernalia.

### "DARK HORSE" TALK NOW THE ORDER OF THE DAY ON EVE OF BIG DEMOCRATIC MEETING

By ROBERT J. BENRED (United Press Staff Correspondent) NEW YORK, June 20.—The religious issue, which for some weeks has been simmering under the surface of Democratic pre-convention politics is now being cast up.

Party leaders, who have joined in agitating the Klan issue more to make a little political medicine than anything else, now are somewhat disturbed lest it defeat its own ends, reject unfavorably on certain candidates the leaders support and create great difficulty for the party.

There is no doubt the Klan question has been flung in the face of the McAdoo forces to help subdue, if possible, the superb confidence that saturates atmosphere about the Vanderbilt hotel.

From the beginning, Democratic leaders who have party success more at heart than the interests of any one candidate have sought in vain to put a quietus on the Klan question. Democratic success in such States as

### INDIANA AND OHIO WOULD BE SERIOUSLY JEOPARDIZED IF THE KLAN ISSUE SHOULD BRING ABOUT A PARTY SPLIT

But the situation is now getting beyond their control: George E. Brennan, Illinois leader, has become insistent for a plank in the platform denouncing the Klan by name. The Underwood forces are adding fuel to the fire. And the report here today that Imperial Wizard Evans of the Klan is coming Monday to direct the fight against an anti-Klan plank and endeavor to "put over" McAdoo, coupled with printed allegations that the Klan supported McAdoo in various State primaries has served to stir the Smith faction.

The Klan, however, is but a symbol of the real issue—region. The chief argument used against Smith has been his religion, the anti-Smith crowd contending that, even if nominated, the New York Governor could not be elected because the religious issue would be injected into the campaign.

## DR. YOUNG AGAINST SUNDAY BASE BALL AND GOLF PLAYING

"Sunday is not the day for baseball, business, or golf. When the Sabbath was changed from the seventh day to the first day of the week it was to commemorate the Resurrection of our Lord Jesus Christ from the dead. It is the day set aside to be significant of our faith in immortality and eternal life," said Dr. Young at the revival being held at the Central Presbyterian church, Thursday night.

A good attendance marked the rising tide of interest in the meeting. Many people from the other churches and from nearby towns were in attendance. Monday night is to be a worship night. The Wortham people say that they expect to attend one hundred strong. Invitations are extended to all other communities to arrange delegations and make reservations early. Social nights will be held next week for any town, fraternity, club, or group who make early reservations, which will include them of securing good seats. The time of the evening service has been changed to 8:15. There will be no service Saturday. Sunday night Dr. Young will resume the preaching to continue through each day and the following Sunday night when the meeting will close.

The chorus choir was larger than the evening before and sang with enthusiasm under Mr. Grayson's leadership. Mr. Grayson's solo was "The Hail that Was Waileth for Me." Dr. Young gave a plenary message for the evening of the Holy Spirit and that the Holy Spirit would make the great Father day, might make Jesus King.

The theme of the sermon was "The Fact Christ Jesus" which was delivered in the most convincing manner in which Dr. Young gives all his messages. He pointed out that the use of force and coercion was gone. That the only religion could stand on a basis of facts. The fact that Jesus was a man.

Dr. Young stated that his mother was a skeptic, and that he had given her faith and the facts of Christianity, by experience. When he was 11 years of age he gave his life to God and that from that day he had been a great man. The evangelist called attention to the fact that the majority of men of this world are not Christians, that he had learned

Tom Cain from Groesbeck was in Mexia Friday in the interest of his candidacy for Tax Collector for Lime stone County.

Miss Gladys Kress of Stephenville, Texas, and a graduate of the John Tarleton College is now located with the Mendor Studio.

Editor Kirgan of the Fairfield Recorder, accompanied by his little son, Master Hulien, drove over Friday morning to meet Miss Sadi, coming home from Waco.

Capt. J. P. Yuddell informed us that he would leave for Eureka Springs, Arkansas next Monday for two months, and wanted the Mexia Daily News to follow him.

Quite a number of Mexia citizens are taking vacations and they are all leaving their address with the Mexia Daily News. If you are a subscriber to the paper, if you will leave your address at the News Office your paper will follow you throughout your trip.

That there was not a man to be found anywhere on earth that did not have some idea of God. Men were essentially, and inherently religious. Then he built his faith on a rock. This rock being, there is a God. He said that this is better established than any fact of history or science. The greatest fact in the world, he proclaimed, to be Jesus Christ. He said that folks expected to hear such an assertion from a preacher. But attention was called to Roger W. Babson who has repeatedly said that the world needs not a revival of business but a revival of religion, and this coming from a great business man.

Regarding the desecration of the Sabbath, Dr. Young, who is an enthusiastic for types of clean outdoor sports, explained that observance of the Sabbath was vital because it was the day set aside to commemorate the Resurrection of our Saviour. He told how only a short time since he had laid away a little baby in the grave. The assurance of immortality through Jesus Christ was all the comfort that could solace the aching heart of the mother. Sunday is the day to worship God and demonstrate out faith in Him and our immortal salvation. Yet men who claimed to believe in God were playing golf, and attending Sunday baseball, and theatres on Sunday and acting as if there were no God, no

Savior, no immortality, no hope. "If you believe it why don't you live it?" was the challenge of the preacher.

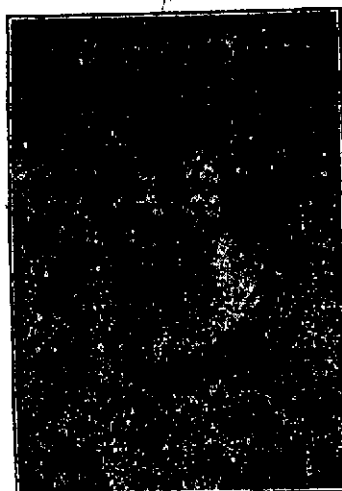

He said that if the earth opened up and swallowed up the people of the world that the majority of the people of Mexia would go to Hell. It was true of Dallas or any other city. The majority of people have already bought their ticket for Hell. The Bible is plain. The man who does not accept the fact Christ Jesus is going to Hell. Then he pleaded passionately that Mexia, that had a reputation for and wide and was famous for her oil and other splendid resources might make an even greater name by making Jesus King and Master.

He said that Church members were either going to have to stop talking about Jesus Christ being the supreme fact of the universe of reality put their profession into actual everyday living. He said it was a dirty shame and inconsistency for members of the church to say they believed in Christ Jesus and then for a church to struggle along at a poor dying rate failing to put their profession into practice. In the closing prayer Dr. Young said that every man had the power to choose between Christ or Hell, and played that the people of Mexia might crown Christ as their King.

An informal reception was given Dr. Young and Mr. Croxton at the home of Rev and Mrs. Aubrey, Thursday afternoon. The Ministers and their wives and the choir leaders of the churches were invited guests.

The meeting at the Palace Theatre was well attended Friday morning at

10 a. m. A choir of some twenty-five voices sang hymn at the entrance to the theatre at the opening. A megaphone, and two with large signs were used to secure attendance. The two meetings will be continued next week. No meeting Saturday.

Dr. Young was a guest at the Lions Club luncheon and made a talk on

Playing the Game. First he said preparation must be made. Next a man must get in all over to win. He must play the game square. He must stay in until the last whistle. He told of the great star athlete, "Dutty" Rhodes of the University of Nebraska. He won Dusty to Christ. Before he left for France he told Dr. Young that if he failed to come back "he had something to look forward to." "Dutty" did not come back. He fell in battle while leading his company. Dr. Young said he would never forget "Dutty's" confession of Christ and his parting words, "I have something to look forward to."

### Five Ways in Which Some Housewives Lose Money

By JOSEPH J. HOLWELL  
Commissioner of Weights and Measures, New York City.

Americans housewives can save millions of dollars yearly by the simple expedient of being careful how, when, and where they trade. The shopping budgets of many families would go much farther if they made it a rule to patronize reliable merchants. The fact that the great majority of grocers and butchers are in this class makes buying from irresponsible merchants the more excusable.

Not only in New York but also in most other cities, there are mushroom places where sly tricks are resorted to for increased profits.

Reputable firms do all they can to stop unfair practices, but those who may bring by far the greatest pressure to bear are the housewives.

There are five common methods of cheating that we discovered recently during an extensive investigation. They are:

1. Short Weight.
2. Insertion of fake items in charge accounts.
3. The "ten-cent gyp" (intentional addition of ten cents to bills.)
4. Delivery of goods poorer in quality than those you ordered.
5. The "frisking" of those who buy over the telephone.

A housewife should always be on the alert to discover short weight. Even honest butchers and grocers may have dishonest clerks. Short weight is common enough to keep our staff of inspectors busy through out New York, and I'm sure the same conditions prevail elsewhere.

Hood of Matagorda, Plantation, Jonestown, Miss., son of the famous General John B. Hood, accompanied by his wife and three young sons, J. B. the third will attend the reunion on June 25 and 26. According to a letter received by S. E. Eberstadt, Secretary of the Bryan Chamber of Commerce, forwarded to him by Miss Kate Daffan, Secretary of Hood's Brigade, Mr. Hood writes that his boy "wanted to see his grandfather but they had to explain to him that his grandfather was in Heaven but that he would meet many of his closest friends." He also declared that he considered it an honor to attend what will be one of the last few meetings of the famous fighting unit of the great war.

## Girl Student Gets Scholarship Award

AUSTIN, Texas, June 20—Miss Frances Ethel Wipff, of Eagle Pass, journalism student at the University of Texas, has been awarded the Texas Woman's Press Association scholarship for next session. Miss Wipff is a senior and will be a candidate for the bachelor journalism degree next year. She is a member of the Theta Sigma Phi, professional journalistic fraternity for women, and has been an assistant in the department of English at the University. She has served on the staff of the Daily Texan, college newspaper, in every capacity from reporter to issue editor, and ran a gallant race for editor of the Texan this year, although no girl has ever held that office. She was defeated by Stewart Harkrider, of Brady.

## ROTARY LISTENS IN ON CONVENTION AT TORONTO THIS WEEK

J. W. Elliott, Secretary of the Mexia Rotary Club, calls attention of all local Rotarians to a change in meeting place of the Dallas Rotary. He does this so that Mexia Rotarians desiring to make up their attendance record may know how to do so, if they want to attend Dallas Rotary. The meeting place has been changed from the Oriental Hotel to the Palm Garden of the Adolphus Hotel.

Brief reports of the conference with special programs and short talks by over a hundred delegates to the Toronto convention are being broadcasted every evening at 7:00 o'clock. Standard Eastern Time, and many Rotarians are tuning in to hear them. Hardy Eubanks being one of these.

Everybody believes in dreams—but not necessarily in their significance. Some men are born to rule and some to acquire the art at a business college.

The success of some men is due to their iron will, and of others to their cheeks of brass.

## Near East Heroine Back in America.

MISS GLEE HASTINGS.

After four years' service, Miss Glee Hastings, of Spencer, Iowa, has returned to New York, wearing the Gold Cross of the Redemptor, the highest decoration the Greek Government could bestow in recognition of her work as Orphan Director for the Near East Relief in Greece. Miss Hastings is a Wellesley girl.

## J. K. HUGHES DEVELOPING CO. PRESENTS MARKET PARADOX

The J. K. Hughes Developing company presents a striking market paradox, inasmuch as it seemingly possesses all of the requisites for profit and market advance, yet breaks in value. The company is one of the substantial of all independents operating in the state of Texas, and produced, according to the state tax returns during the last six months of 1923, 599,535 barrels of oil with a money value of \$497,768.11. The company is capitalized for only \$2,000,000, and, according to authentic statistics, has but \$1,700,000 worth of stock outstanding. The income for the last half of 1923 was, therefore, more than 25% of the outstanding stock.

In view of the fact that the early part of 1924 has seen extensive additions to the company's production, we presume that the income of the company has materially increased, as the price of oil has advanced materially over 1923 figures. It would appear, then, that J. K. Hughes is in a particularly excellent market position, and an advance in the price of stock should have occurred.

## OLD MASONS TO BE HONORED TONIGHT

The old time Masons of Mexia and vicinity will be the honor guests at a called meeting of Springfield Lodge tonight when the Masters degree will be conferred after which refreshments will be served. Transportation will be furnished for those who have no way to come, if they will notify Colon Phillips, Master of the lodge.

America's birth rate last year was lower, which would indicate that the coming generation will know something of discretion.

## FORMER MEXIA MAN RUNNING FOR STATE COMPTROLLER'S JOB

Tom Bell of Texarkana, formerly of Mexia where he drilled an oil test in dry territory in 1921, is seeking the office of State Comptroller. Mr. Bell states that although a poor man, he believes that it is possible for such to be elected to State office.

"The numerous demands" for money and efforts to make a "touch" by people who have "preference" or "influence" to offer, is astounding, and it would take a King Solomon or Croesus to meet these demands should one accede to all of them, says Mr. Bell.

Mr. Bell maintains that he is willing to serve the people to the best of his ability, if elected, but that he is unwilling to "buy" the office—saying the best interests of the State and voters would naturally be expected to suffer if he did so, for he would be expected to compensate or remunerate himself in some way, adding this is true of any other candidate who spends more than the office pays to get it, saying he will either serve himself or those financing him, whose interests are inimical to the best interests of the common people or the voters as a whole.

Mr. Bell is a native of the State, born in Bowie County, Nov. 5, 1878, but principally reared in Collins County at McKinney and Farmersville.

He is a member of the Typographical Union, the only CARD man in the race, and endorsed by the Farm-Labor Conference at Dallas in joint session by a vote of 290 to his nearest opponents 80.

He was First Assistant State Purchasing Agent under the Ferguson administration and Deputy Labor Commissioner under the Hobby administration during the World War, engaged in aiding in the transportation of Mexican laborers to the United States to take the place of the enlisted men most of the time, doing his "bit" in this way.

He is also a Spanish-American War veteran, serving with Company C, 3rd Inf. (Greenville Rifles) during that conflict. He has successfully conducted newspapers in several Texas cities, and served his home people in the little city of Ladonia, Fannin County as Mayor.

He does not claim to be a "policeman" in the strict sense, but a newspaper man, of broad experience, and a vision desirous of being of service to his fellowman, and interested in the affairs and welfare of the common people from whose ranks he comes.

He was left an orphan at the age of 15, with a widowed mother and five brothers and sisters to help support.

He did this selling papers on the street, first as a newsboy—later as a "printer's devil" then graduated to journeyman printer, reporter, advertising solicitor, news writer and managing editor. He not only educated himself, but was instrumental in seeing his brothers and younger sister secure an education, all being now grown, and all but one the head of families of their own.

At present, someone ought to volunteer to spend a few hours every afternoon at the playgrounds in Hughes Park. Some of the larger boys, without oversight, are already beginning to treat the apparatus rather roughly and someone will be hurt unless precaution is taken.

## Sizemore Stationed At Mexia Once More

R. C. Sizemore Group Manager of the Southwestern Bell Telephone Company has again been stationed here at Mexia after a year or two as manager of the same Company at Corsicana. On a recent visit to the News we again complimented him on the splendid service given by the local Company. Visitors in our city as well as local concerns all realize that the city of Mexia is being given excellent service, and the local exchange is due all the praise given them.

The public is cordially invited to attend all services of the Central Presbyterian revival, both morning and evenings. A splendid crowd attended the service Thursday night.

## JUDGE OF TENTH DISTRICT HERE SEEKING VOTES

Hon. George W. Barcus, candidate for re-election as Associate Justice of the Tenth Court of Civil Appeals, for place number one, of Waco, was a Mexia visitor Wednesday in the interest of his campaign. He is a member of the famous Texas Barcus family, so many of which are ministers. He states that the district is so large that he will not be able to meet all of the voters and that he cannot carry a personal message to all of them, but that he is meeting as many as he can while performing his duties on the bench. There are twelve big counties in this section of Texas in the Tenth District.

## HAD DIETED FOR 16 YEARS

"What the newspapers have said about Karnak is not half good enough. The medicine has freed me of sixteen years' suffering and I would not be without it if it cost twenty-five dollars a bottle."

This is the emphatic way in which Mr. George Magness, 208½ North Presa St., San Antonio, expresses his opinion of the sensational new medicine which is causing such widespread comment throughout the country.

"When I began taking Karnak," continued Mr. Magness, "I had been on a diet for sixteen years, so you can realize what the medicine has done for me when I say that I now eat as I please, never have a particle of trouble afterward, and have gained eleven pounds in weight."

"I suppose I had as had a case of chronic trouble and all run-down condition as any man in Texas. I could not eat even the lightest kind of food without suffering for hours with gas, biliousness and indigestion. I finally fell off to only 150 pounds and got so weak I would actually stagger when I walked. I hardly knew what a good night's sleep was would get up every morning with pain and soreness all through my body and my back so stiff I could hardly straighten up."

"But it's a different story with me now. I eat three hearty meals a day, sleep eight or nine hours without scarcely turning over and feel fine and strong in every way. If anybody wants to know about Karnak, send them to me. It is as different from other medicines as night is from day."

Karnak is sold in Mexia by the Mexia Drug Co.—(Adv.)

We wish to announce to the public that we have acquired the room formerly occupied by Mrs. W. A. Everett, next door east of our shop, and are taking out the partition and making one big barber shop out of the two rooms.

We are putting in a special department for ladies and children under the supervision of Mr. George Scroggins, who has recently completed the prescribed courses for this department. In this separate department, ladies and children can secure their barber work with all the conveniences and privacy of a modern city barber shop.

### JAIL OF FUTURE TO BE HOSPITAL FOR INSANE?

The Scottish Rite News Bureau says one hundred and twenty-five years ago, 222 offenses were punishable with death in England. In 1861 this number was reduced to two: treason and murder.

European countries which have abolished capital punishment include: Austria, Czechoslovakia, Holland, Italy, Latvia, Lithuania, Norway, Rumania, Portugal, and Sweden. Though Belgium, Denmark, Finland, and Switzerland still retain it, capital punishment is rarely, if ever, used. In the United States, 12 states abolish it, and 24 give power to the court, either to the judge or jury, or both, to substitute imprisonment instead. Thirteen states still retain it.

"That capital punishment is doomed no thinking person doubts," says Hon. George F. Tracy, an English authority on penology. "It is merely a question of how long the practice shall survive. That jail, reformatory, houses of correction and places of incarceration which are now but pens in which human cattle are herded are also doomed as such, is obvious from the trend of the times. Tomorrow's penal institution will not be so named, thought of or administered. It will not be a place of punishment, but a place of retraining; criminals will not be 'incarcerated' any more than patients suffering from contagious diseases are now 'incarcerated' in hospitals. The jail of today will become the psychiatric hospital of tomorrow; law breakers will be cured of law breaking, if curable; if incurable, they will be kept at useful labor, for life, if necessary."

It is a long road and we have gone but a little way. That the end of it may be as is written above, is at least indicated by the history of crime, punishment, and the uselessness of penal laws based upon the idea of punishment and revenge, rather than cure and reform.

### CANDIDATES SHOULD SPEAK OUT AT ONCE

Although prohibition is not to be an out and out issue in Limestone county this year, it is believed that every effort is to be made by the bootlegging element to stick together for the good of the order. It has been said frequently of late that the lawless element in Limestone County is well organized and ready for the polls when ballot time comes around. The candidates should issue statements as to how they stand on the bootlegger question. Also close attention should be given as to who the worse element in the county vote for. Straws show which way the wind blows.

The school board of the District of Columbia has an appropriation of \$100,000 to buy school books for the year. The result is fifty, fattened, degenerated, behind-the-times text books supplied to the children. Some people seem to have an awful grudge against the public school. The sooner we tackle this education problem with energy the sooner will we get a return of 10,000 per cent on our money.

It is said that the French have provided wine and beer for the Olympic athletes of nations housing their teams in the Olympic village to be erected for the forthcoming games. Is this a conspiracy of the French against the athletes of other nations to have the abstaining Americans perhaps induced the French to make sure another American victory?

The Germans, with an army of 22,850,000 men, prepared and trained by a prepared nation, inflicted 22,000,000 casualties on the Allies. Thereafter every German accounted for one of his enemies, but the Allies, with an army of 42,189,000 men, caused only 15,000,000 casualties among the Germans. There's a Reason—A Reserve Officer.

The total lack of employment in America is the gift of prohibition to liquor. America experienced a greater dislocation of industrial interests by the end of the war than any other country and yet today, due to the abolition of the legalized liquor traffic, America has no unemployed.

'Tis a funny thing how filled lawyers get when the "Hear ye, hear ye" ceremony in courthouses is delayed because the judge is late getting down. Some lawyer is inevitably bound to go behind the judge's desk and take a look, as though he expected to find him under it.

Life's darkest moment to the poor mother, who has spent two days preparing a picnic, and weary hours dressing and preparing the kids for a picnic, is when the gentle rain begins to fall just as she is prepared to spread the feast.

"Strange," says the busy strong, "that when a girl possesses a box of candy every young man who sees it is so curious about it that one would think none of them ever purchased a box."

## Hard Matter To Keep Out Bootleggers, Etc. On The Texas Border

ELPASO, June 20 Nightly, through the "back door" of the United States, aliens and liquor smugglers attempt to cross the Rio Grande. With 900 miles of sand dunes, shrubbery and mountains to patrol, it is no easy task to prevent their entrance, says Geo. J. Harris, federal director for the district.

1300 aliens have been turned back in the last ten months, and now the Japanese are to be excluded also. Officials anticipate more difficulty than ever.

El Paso formerly was the center of the Chinese immigration difficulties. There were two schools in Jurez which coached Chinese in answering the questions government agents might ask.

Hundreds of their pupils stole into the United States. Mounted river guards patrol the border, and occasionally one is killed in a skirmish with smugglers.

"It's too big a job for the few men we have," Harris said. "Fortunately relief is in sight. The Hudspeeth appropriation bill provides money for

was on a Dutch vessel, for this youngster was born in Schleswig-Holstein, and left home at the age of 14 because his family was too poor to support him and give him the start in life that he craved. He got the equivalent of just \$12.50 for a whole summer's work.

He never did fare much better until he finally came to the United States and got a berth on a Bangor ship, whose captain soon singled him out to be mate. Then with a fair start toward a skipper's papers, he gave it all up and went to work in the Chicago stock yards at \$9 per week. But he saved enough out of this to buy a farm, and then a farm store, migrating successively to Salt Lake City, Tacoma and Spokane as his capital fund grew. It was in the latter city that he got a chance to buy the flour mill which since has grown into an international business.

## START A LIBRARY FOR THE CHILDREN.

The Bible is, or should be, the cornerstone of every library. All boys and girls should be given an early chance to know the Bible. Reading the Bible is the surest and best foundation for a liberal education. In the estimation of great scholars and teachers the Bible stands first in literary merit.

No matter what religion may be yours, or in what faith you want your child raised, you do want it to grow in whatever knowledge is considered essential for general culture. Put the Bible in your children's hands for the story feature. In reading these stories they will unconsciously absorb the style and their taste for other good literature will naturally follow. Teaching the child to like the right kind of reading matter is one of the educator's hardest tasks, if their home training has been indifferent.

Start them right at home, and start them now. It only takes a few days before you can own one of the most beautiful Bibles printed. The coupon in another part of today's paper, will tell you how easy it will be to acquire it, but it may not be so easy later on, as the offer is limited as to time, and because of the limited number of copies which the publisher considered our proportion for local distribution.

## OKLAHOMA WILTS WHILE HARVEST GETS UNDER WAY BIG

OKLAHOMA CITY, Ok., June 20—Oklahoma wilted under a hot scorching sun today which sent temperatures up to record high levels for June.

The heat was causing intense suffering among harvesters in the wheat fields and many were reported overcome. In many sections of the wheat belt the farmers were working early in the morning and late in the evening to avoid the mid-day heat.

Crops were not reported damaged as yet but unless the heat waned it was broken by rain the grain will become over-ripe before it is cut.

At Altus, Ok., Wednesday the mercury shot up to 113. Twenty-five head of live stock in that section perished from the heat. In other parts of the state the temperature varied from 95 to 110.

No immediate relief from the torrid temperatures was foreseen by the weather experts who predicted continued fair and warm weather for tonight and tomorrow.

## What A Texan Thinks Of Japanese Anger

AUSTIN, June 19—"Recent Japanese demonstrations in Tokyo, protesting against the action of the United States Congress in enacting a law excluding Japanese from this country should not be taken too seriously by Americans," suggested W. D. Hornaday of Austin, who has just returned from a year's stay in the Orient and Hawaiian Islands. "The masses of Japanese are living in filth, poverty and ignorance and know nothing and care less about what the United States has done or may do in the matter of keeping them out of this country. In such a city as Asoka it is easy to arouse the mob spirit on almost any question and it is done frequently when only domestic matters are involved. The ruling element of Japan must know that the United States was purely justified, from economic and racial considerations, in putting up the bars against their nationals. Japan itself excludes the Chinese and no foreigner can own land in that country. For twenty years or more Australia has enforced exclusion regulations, by means of the literacy test, against the Japanese and I understand the same is true to South Africa. Still, strange to say, Japan, so far as I know never made any protest to Great Britain against such action to these colonies."

"Except in her Navy Japan has nothing to qualify her for classification as a first class power. Many well informed people think the efficiency of that country's Navy is greatly over-rated in the eyes of the world. Economically Japan was in desperate condition before the disastrous earthquake and her industrial and business interests are now facing a crisis. The country is largely dependent upon foreign trade for prosperity at home, and during the last two years much of this trade has for various reasons been lost to her. A deluge of bank and business failures occurred last year and business embarrasements are still taking place with much frequency. Japan is the greatest press censored country in the world. Even the so-called liberties of the islands are not what they are pictured. The winter and summer climates are miserable and almost unbearable."

Mr. Hornaday described China and the Chinese in a favorable light. He asserted that the lack of a real central government of China and the general unsettled conditions due to revolution and bandit business

Dr. M. W. SHERWOOD

everywhere was going on about as usual when he was there. The Chinese are a great and likable people, he declared. With thousands of years of history behind them the Chinese view with complacency the present period of political chaos. They take the view that everything will be righted in time. What are a few years of trouble in the thousands of years that make up the life of the nation? So, the average Chinese smiles and goes on about his business. They are worried more about the eternal mixing in of their affairs by Americans and other foreigners than about their own domestic difficulties."

Mr. Hornaday spent the winter and spring in Honolulu. He was joined there by his family last January and they returned with him to Austin. "The Hawaiian Islands are very properly called the Paradise of the Pacific," he said. "In no part of the world is there to be found a more delightful all-the-year-round climate than that of Honolulu. It is never too warm or too cold there. The beauties of the city and islands are indescribable. Flowering trees, shrubs and plants abound everywhere. The city of Honolulu, with its 100,000 population, is modern in every respect. Some idea of the agricultural wealth of the islands may be had when it is stated that the 250,000 acres in cultivation produce, on an average, cane

and other crops to the value of \$160,000 to every 640 acres each year.

"There are many Texans in Hawaii. They are found scattered all through the 15,000 soldiers and several thousand marines stationed there, as well as among the civilian population."

"About 45 per cent of population of the islands are Japanese," Mr. Hornaday said. "There are also thousands of Chinese, Filipinos, Koreans, Porto Ricans, Portuguese, and native Hawaiians there. They all get along harmoniously together," he declared. Mr. Hornaday is director of publicity of the University of Texas. He was actively employed in newspaper work in the State for many years before he became connected with that institution. On his recent trip to the Orient and Hawaii he represented as correspondent a syndicate of Northern and Eastern newspapers for which he wrote a series of about one hundred articles.

It is estimated that 100 per cent of this year's graduates who expect to be made bank presidents at once will be disappointed.

## Houston Teachers Prepare For More Efficient Service

HOUSTON, June 19—Wanderlust and a desire for higher education have caused seventy percent of Houston public school teachers to leave the city during the summer, according to Miss Hoop, secretary to the superintendent of the schools.

Cross country trips in automobiles claimed a good many, and various universities lured others to all parts of the U. S.

SILVER SQUARE AND COMPASSES PRESENTED

WASHINGTON, D. C.—The newly instituted Trinity Masonic Lodge No. 41 was the recipient of a very beautiful token of fraternal interest on the part of William R. Singleton Lodge No. 30, which presented the new lodge with a beautifully engraved silver square and compasses; in

token of their love and esteem for their former member Charles R. Bartlett, who is the first Master of Trinity Lodge. They also bear the inscription:

"That man is great, and he alone, Who serves a greatness not his own. For neither praise nor self; Content to know and be unknown, Whole in himself."

Albert Pike Lodge No. 36 presented the new lodge with the officers' jewels.

The man who always counts on his friends seldom figures in their calculations.

## PAINT AND PAPER COMPANY MANAGER SEES BIGGER MEXIA

The News Publishing Company has just completed the repainting of its front office, giving it the entrance of much greater attractiveness than before. The work was done by the Stanberry Paint and Wall Paper Company of 113 North Sherman street. Hiram Hobbs is the manager of the concern and is an expert workman himself. In the office, he is assisted by his sons, Jesse C. and Doderick J. Hobbs. Although a resident of this place, only a few months, Mr. Hobbs and his family have won many friends. He is an enthusiast for the city already and sees a bright future ahead of it. He has therefore increased the stock of the company considerably to take care of the growing concern in a growing community.

## Million Dollar Show In Tulsa Oil Expo.

TULSA, Okla., June 20.—Cost in cold cash, more than a million! That, according to authorities familiar with such appliances, is a very conservative estimate of the money value of the exhibits which will be displayed at the second annual International Petroleum Exposition, now being arranged for presentation in Tulsa, for a ten-days' run, beginning October 2.

All of the space originally allotted for commercial exhibits was sold out on June 6 and the management was compelled to make a quick shift in plans and begin selling space in the large building which at first was intended to house the scientific and technical exhibits and others of a non-commercial nature. A new pavilion is now planned for the last mentioned part of the show, according to the management.

An astonishing number of entirely new devices will distinguish this show. Many manufacturers are holding back new products so as to be able to introduce them to the trade and the public at the Exposition, where, it is expected, at least 200,000 oil and gas men will gather from all parts of the world.

Nearly 200 exhibitors have already taken space, the management states, and the further claim is made that this exposition is to be the largest ever held for one single industry. The exhibits will range from ponderous Diesel engines and compressors, in actual operation, down to the tiny diamonds used in core drilling.

The hardness of his way is never realized by the transgressor until he gets a real hard fall on it.

FORT WORTH, Texas, June 20.—Red Tape, the familiar decoration of governments circles, has kept John Taylor, one armed veteran of the Philippines campaign out of work for two years. The other day this letter topped a sheaf of correspondence, covering two years, was received by the U. S. Farm Labor Bureau here. Taylor is right where he started.

And to make it worse, he has a wife and two daughters to support. The red tape is proving an effectual barrier to his getting a government job of some sort, says Taylor.

### "DARK HORSE" TALK NOW THE ORDER OF THE DAY ON EVE OF BIG DEMOCRATIC MEETING

By ROBERT J. BENRED  
(United Press Staff Correspondent)  
NEW YORK, June 20.—The religious issue, which for some weeks has been simmering under the surface of Democratic pre-convention politics is now being cast up.

Party leaders, who have joined in agitating the Klan issue more to make a little political medicine than anything else, now are somewhat disturbed lest it defeat its own ends, react unfavorably on certain candidates the leaders support and create great difficulty for the party.

There is no doubt the Klan question has been flung in the face of the McAdoo forces to help subdue, if possible, the superb confidence that saturates atmosphere about the Vanderbilt hotel.

From the beginning, Democratic leaders who have party success more at heart than the interests of any one candidate have sought in vain to put a quietus on the Klan question. Democratic success in such States as

DR. YOUNG AGAINST  
SUNDAY BASE BALL  
AND GOLF PLAYING

"Sunday is not the day for baseball, business, or golf. When the Sabbath was changed from the seventh day to the first day of the week it was to commemorate the Resurrection of our Lord Jesus Christ from the dead. It is the day set aside to be significant of our faith in immortality and eternal life," said Dr. Young at the revival being held at the Central Presbyterian church, Thursday night.

A good attendance marked the rising tide of interest in the meeting. Many people from the other churches, and from nearby towns were in attendance. Monday night is to be Wortham night. The Wortham people say that they expect to attend one hundred strong. Invitations are extended to all other communities to arrange delegations and make reservations early. Special nights will be held next week for any town, fraternity, club, or group who make early reservations, which will assure them of securing good seats. The time of the evening service has been changed to 8:15. There will be no services Saturday. Sunday night Dr. Young will resume the preaching to continue through each day until the following Sunday night when the meeting will close.

The chorus choir was larger than the evening before and sang with enthusiasm, under Mr. Croxton's leadership. Mr. Croxton's solo was "The Hand that Was Wounded for Me." Dr. Young prayed a passionate prayer for the outpouring of the Holy Spirit and that Mexia, like Florence under the great Savonarola, might make Jesus King.

The theme of the sermon was "The Fact Christ Jesus" which was delivered in the positive, commanding manner in which Dr. Young gives all his messages. He pointed out that the way of ignorance and superstition was gone. That not even religion could stand unless based on facts. Tradition was put aside. The Christian Religion had in it a body of facts incomparable to any body of facts found elsewhere. Dr. Young stated that his mother was religious, and that he had proven his faith and the facts of Christianity by experience. As a boy 14 years of age he gave his life to God and that from that day he had been moved with a great passion for Christ Jesus. The evangelist called attention to the fact that after a thorough study of men of different races, and times, that he had learned

That there was not a man to be found anywhere on earth that did not have some idea of God. Men were essentially, and inherently religious. Then he built his faith on a rock. This rock being, there is a God. He said that this is better established than any fact of history or science. The greatest fact in the world, he proclaimed, to be Jesus Christ. He said that folks expected to hear such an assertion from a preacher. But attention was called to Roger W. Babson who has repeatedly said that the world needs not a revival of business but a revival of religion, and this coming from a great business man.

Regarding the desecration of the Sabbath, Mr. Young, who is an enemy of ignorance and superstition was gone. That not even religion could stand unless based on facts. Tradition was put aside. The Christian Religion had in it a body of facts incomparable to any body of facts found elsewhere. Dr. Young stated that his mother was religious, and that he had proven his faith and the facts of Christianity by experience. As a boy 14 years of age he gave his life to God and that from that day he had been moved with a great passion for Christ Jesus. The evangelist called attention to the fact that after a thorough study of men of different races, and times, that he had learned

Savior, no immortality, no hope. "If you believe it why don't you live it" was the challenge of the preacher.

He said that if the earth opened up and swallowed up the people of the world that the majority of the people of Mexia would go to Hell. It was true of Dallas or any other city. The majority of people have already bought there ticket for Hell. The Bible is plain. The man who does not accept the fact Christ Jesus is going to Hell. Then he plead passionately that Mexia, that had a reputation far and wide and was famous for her oil and other splendid resources, might make an even greater name by making Jesus King and Master.

He said that Church members were either going to have to stop talking about Jesus Christ being the supreme fact of the universe of really put their profession into actual everyday living. He said it was a dirty shame and inconsistency for members of the church to say they believed in Christ Jesus and then for a church to struggle along at a poor dying rate failing to put their profession into practice. In the closing prayer Dr. Young said that every man had the power to choose between Christ or Hell, and prayed that the people of Mexia might crown Christ as their King.

An informal reception was given Dr. Young and Mr. Croxton at the home of Rev. and Mrs. Aubrey, Thursday afternoon. The Ministers and their wives and the choir leaders of the churches were invited guests.

The meeting at the Palace Theatre was well attended Friday morning at

10 a. m. A choir of some twenty-five voices sang hymn at the entrance of the theatre at the opening. A megaphone, and two with large signs were used to secure attendance. The theatre meetings will be continued next week. No meeting Saturday.

Dr. Young was a guest at the Lions Club luncheon and made a talk on

Playing the Game. First he said preparation must be made. Next a man must get in all over to win. He must play the game square. He must play in team work. And he must stay in until the last whistle. He told of the great star athlete, "Dutty" Rhodes of the University of Nebraska. He won Dutty to Christ. Before he left for France he told Dr. Young that if he failed to come back "he had something to look forward to." "Dutty" did not come back. He fell in battle while leading his company. Dr. Young said he would never forget "Dutty's" confession of Christ and his parting words, "I have something to look forward to."

Five Ways  
in Which Some Housewives  
Lose Money

By JOSEPH J. HOLWELL  
Commissioner of Weights and  
Measures, New York City.

Americans housewives can save millions of dollars yearly by the simple expedient of being careful how, when, and where they trade. The shopping budgets of many families would go much farther if they made it a rule to patronize reliable merchants. The fact that the great majority of grocers and butchers are in this class makes buying from irresponsible merchants the more inexcusable.

Not only in New York but also in most other cities, there are mushroom places where sly tricks are reported to for increased profits.

Reputable firms do all they can to stop unfair practices, but those who may bring by far the greatest pressure to bear are the housewives.

There are five common methods of cheating that we discovered recently during an extensive investigation. They are:

1. Short Weight.
2. Insertion of fake items in charge accounts.
3. The "ten-cent gyp" (intentional addition of ten cents to bills.)
4. Delivery of goods poorer in quality than those you ordered.
5. The "frisking" of those who buy over the telephone.

A housewife should always be on the alert to discover short weight. Even honest butchers and grocers may have dishonest clerks. Short weight is common enough to keep our staff of inspectors busy through out New York, and I'm sure the same conditions prevail elsewhere.

# GENERAL HOOD'S SON TO ATTEND REUNION OF BRIGADE

Old Soldiers from this section planning to attend the meeting of Hood's brigade at Bryan this year will be glad to learn that J. B. Hood of Matagorda, Plantation, Jonestown, Miss., son of the famous General John B. Hood, accompanied by his wife and 3 year old son, J. B. the third will attend the reunion on June 25 and 26. According to a letter received by S. E. Eberstadt, Secretary of the Bryan Chamber of Commerce, forwarded to him by Miss Kate Daffan, Secretary of Hood's Brigade, Mr. Hood writes that his boy "wanted to see his grandfather but they had to explain to him that his grandfather was in Heaven but that he would meet many of his closest friends." He also declared that he considered it an honor to attend what will be one of the last few meetings of the famous fighting unit of the great war.

## Girl Student Gets Scholarship Award

AUSTIN, Texas, June 20—Miss Frances Ethel Wipf, of Eagle Pass, journalism student at the University of Texas, has been awarded the Texas Women's Press Association scholarship for next session. Miss Wipf is a senior and will be a candidate for the bachelor journalism degree next year. She is a member of the Theta Sigma Phi, professional journalistic fraternity for women, and has been an assistant in the department of English at the University. She has served on the staff of the Daily Texan, college newspaper, in every capacity from reporter to issue editor, and ran a gallant race for editor of the Texan this year, although no girl has ever held that office. She was defeated by Stewart Harkrider, of Brady.

## ROTARY LISTENS IN ON CONVENTION AT TORONTO THIS WEEK

J. W. Elliott, Secretary of the Mexia Rotary Club, calls attention of all local Rotarians to a change in meeting place of the Dallas Rotary. He does this so that Mexia Rotarians desiring to make up their attendance record may know how to do so, if they want to attend Dallas Rotary. The meeting place has been changed from the Oriental Hotel to the Palm Garden of the Adolphus Hotel.

Brief reports of the conference with special programs and short talks by over sea Rotary delegates to the Toronto convention are being broadcasted every evening at 7:00 o'clock, Standard Eastern Time, and many Rotarians are tuning in to hear them, Hardy Eubanks being one of these.

Everybody believes in dreams—but not necessarily in their significance. Some men are born to rule and some to acquire the art at a business college.

The success of some men is due to their iron wills, and of others to their cheeks of brass.

## FORMER MEXIA MAN RUNNING FOR STATE COMPTROLLER'S JOB

Tom Bell of Texarkana, formerly of Mexia where he drilled an oil test in dry territory in 1921, is seeking the office of State Comptroller. Mr. Bell states that although a poor man, he believes that it is possible for such to be elected to State office.

"The numerous demands" for money and efforts to make a "touch" by people who have "preference" or "influence" to offer, is astounding, and it would take a King Solomon or Croesus to meet these demands should one accede to all of them, says Mr. Bell.

Mr. Bell maintains that he is willing to serve the people to the best of his ability, if elected, but that he is unwilling to "buy" the office—saying the best interests of the State and voters would naturally be expected to suffer if he did so, for he would be expected to compensate or remunerate himself in some way, adding this is true of any other candidate who spends more than the office pays to get it, saying he will either serve himself or those financing him, whose interests are inimical to the best interests of the common people or the voters as a whole.

Mr. Bell is a native of the State, born in Bowie County, Nov. 5, 1878, but principally reared in Collins County at McKinney and Farmersville.

He is a member of the Typographical Union, the only CARD man in the race, and endorsed by the Farm-Labor Conference at Dallas in joint session by a vote of 290 to his nearest opponents 80.

He was First Assistant State Purchasing Agent under the Ferguson administration and Deputy Labor Commissioner under the Hobby administration during the World War, engaged in aiding in the transportation of Mexican laborers to the United States to take the place of the enlisted men most of the time, doing his "bit" in this way.

He is also a Spanish-American War veteran, serving with Company C, 2nd Inf. (Greenville Rifles) during that conflict. He has successfully conducted newspapers in several Texas cities, and served his home people in the little city of Ladonia, Fannin County as Mayor.

He does not claim to be a "policeman" in the strict sense, but a newspaper man, of broad experience, and a vision desirous of being of service to his fellowman, and interested in the affairs and welfare of the common people from whose ranks he comes.

He was left an orphan at the age of 15, with a widowed mother and five brothers and sisters to help support.

He did this selling papers on the street, first as a newsboy—later as a "printer's devil" then graduated to journeyman printer, reporter, advertising solicitor, news writer and managing editor. He not only educated himself, but was instrumental in seeing his brothers and younger sister secure an education, all being now grown, and all but one the head of families of their own.

At present, someone ought to volunteer to spend a few hours every afternoon at the playgrounds in Hughes Park. Some of the larger boys, without oversight, are already beginning to treat the apparatus rather roughly and someone will be hurt unless precaution is taken.

## Sizemore Stationed At Mexia Once More

R. C. Sizemore Group Manager of the Southwestern Bell Telephone Company has again been stationed here at Mexia after a year or two as manager of the same Company at Corsicana. On a recent visit to the News we again complimented him on the splendid service given by the local Company. Visitors in our city as well as local concerns all realize that the city of Mexia is being given excellent service, and the local exchange is due all the praise given them.

The public is cordially invited to attend all services of the Central Presbyterian revival, both morning and evenings. A splendid crowd attended the service Thursday night.

## JUDGE OF TENTH DISTRICT HERE SEEKING VOTES

Hon. George W. Barcus, candidate for re-election as Associate Justice of the Tenth Court of Civil Appeals, for place number one, of Waco, was a Mexia visitor Wednesday in the interest of his campaign. He is a member of the famous Texas Barcus family, so many of which are ministers. He states that the district is so large that he will not be able to meet all of the voters and that he cannot carry a personal message to all of them, but that he is meeting as many as he can while performing his duties on the bench. There are twelve big counties in this section of Texas in the Tenth District.

# HAD DIETED FOR 16 YEARS

"What the newspapers have said about Karnak is not half good enough. The medicine has freed me of sixteen years suffering and I would not be without it if it cost twenty-five dollars a bottle."

This is the emphatic way in which Mr. George Magness, 208 1/2 North Presa St., San Antonio, expresses his opinion of the sensational new medicine which is causing such widespread comment throughout the country.

"When I began taking Karnak," continued Mr. Magness, "I had been on a diet for sixteen years, so you can realize what the medicine has done for me when I say that I now eat as I please, never have a particle of trouble afterward, and have gained eleven pounds in weight."

"I suppose I had as bad a case of chronic trouble and all run-down

condition as any man in Texas. I could not eat even the lightest kind of food without suffering for hours with gas, biliousness and indigestion. I finally fell off to only 150 pounds and got so weak I would actually stagger when I walked. I hardly knew what a good night's sleep was would get up every morning with pain and soreness all through my body and my back so stiff I could hardly straighten up."

"But it's a different story with me now. I eat three hearty meals a day, sleep eight or nine hours without scarcely turning over and feel fine and strong in every way. If anybody wants to know about Karnak, send them to me. It is as different from other medicines as night is from day."

Karnak is sold in Mexia by the Mexia Drug Co.—(Adv.)

### JAIL OF FUTURE TO BE HOSPITAL FOR INSANE?

The Scottish Rite News Bureau says one hundred and twenty-five years ago, 222 offenses were punishable with death in England. In 1861 this number was reduced to two: treason and murder.

European countries which have abolished capital punishment include: Austria, Czechoslovakia, Holland, Italy, Latvia, Lithuania, Norway, Rumania, Portugal, and Sweden. Though Belgium, Denmark, Finland, and Switzerland still retain it, capital punishment is rarely, if ever, used. In the United States, 12 states abolish it, and 24 give power to the court, either to the judge or jury, or both, to substitute imprisonment instead. Thirteen states still retain it.

"That capital punishment is doomed no thinking person doubts," says Hon. George F. Tracey, an English authority on penology; "it is merely a question of how long the practice shall survive. That jails, reformatories, houses of correction and places of incarceration which are now but pens in which human cattle are herded are also doomed as such, is obvious from the trend of the times. Tomorrow's penal institution will not be so named, thought of or administered. It will not be a place of punishment, but a place of retraining; criminals will not be 'incarcerated' any more than patients suffering from contagious diseases are now 'incarcerated' in hospitals. The jail of today will become the psychopathic hospital of tomorrow; law breakers will be cured of law breaking, if curable; if incurable, they will be kept at useful labor, for life, if necessary."

It is a long road and we have gone but a little way. That the end of it may be as is written above, is at least indicated by the history of crime, punishment, and the uselessness of penal laws based upon the idea of punishment and revenge, rather than cure and reform.

### CANDIDATES SHOULD SPEAK OUT AT ONCE

Although prohibition is not to be an out and out issue in Limestone county this year, it is believed that every effort is to be made by the bootlegging element to stick together for the good of the order. It has been said frequently of late that the lawless element in Limestone County is well organized and ready for the polls when ballot time comes around. The candidates should issue statements as to how they stand on the bootlegger question. Also close attention should be given as to who the worst element in the county vote for. Straws show which way the wind blows.

The school board of the District of Columbia has an appropriation of \$100,000 to buy school books for the year. The result is dirty, tattered, dog-eared, behind-the-times text books supplied to the children. Some people seem to have an awful grudge against the public school. The sooner we tackle this education problem with energy the sooner will we get a return of 10,000 per cent on our money.

It is said that the French have provided wine and beer for the Olympic athletes of nations housing their teams in the Olympic village to be erected for the forth-coming games. Is this a conspiracy of the French against the athletes of other nations or have the abstaining Americans perhaps induced the French to make sure another American victory?

"The Germans, with an army of 22,850,000 men, prepared and backed by a prepared nation, inflicted 22,090,000 casualties on the Allies' Troops. Almost every German accounted for one of his enemies, but the Allies, with an army of 42,189,000 men caused only 15,405,000 casualties among the Germans." There's a Reason—(A Reserve Officer.)

The total lack of unemployment in America is the gift of prohibition to labor. America experienced a greater dislocation of industrial interests by the end of the war than any other country and yet today, due to the abolition of the legalized liquor traffic, America has no unemployed.

'Tis a funny thing how riled lawyers get when the "Hear ye, hear ye" ceremony in courtrooms is delayed because the judge is late getting down. Some lawyer is inevitably bound to go behind the judge's desk and take a look, as though he expected to find him under it.

Life's darkest moment to the poor mother, who has spent two days preparing a lunch, and weary hours dressing and pinning the kids for a picnic, is when the gentle rain begins to fall just as she is prepared to spread the feast.

"Strange," says the busy stenog, "that when a girl possesses a box of candy every young man who sees it is so curious about it that one would think none of them ever purchased a box."

## Hard Matter To Keep Out Bootleggers, Etc. On The Texas Border

ELPASO, June 20 Nightly, through the "back door" of the United States, aliens and liquor smugglers attempt to cross the Rio Grande. With 900 miles of sand dunes, shrubbery and mountains to patrol, it is no easy task to prevent their entrance, says Geo. J. Harris, federal director for the district.

1300 aliens have been turned back in the last ten months, and now the Japanese are to be excluded also, officials anticipate more difficulty than ever.

El Paso formerly was the center of the Chinese immigration difficulties. There were two schools in Jurez which coached Chinese in answering the questions government agents might ask.

Hundreds of their pupils stole into the United States. Mounted river guards patrol the border, and occasionally one is killed in a skirmish with smugglers.

"It's too big a job for the few men we have," Harris said. "Fortunately relief is in sight. The Hudspeth appropriation bill provides money for

He never did fare much better until he finally came to the United States and got a berth on a Bangor ship, whose captain soon singled him out to be mate. Then with a fair start toward a skipper's papers, he gave it all up and went to work in the Chicago stock yards at \$9 per week. But he saved enough out of this to buy a farm, and then a farm store, migrating successively to Salt Lake City, Tacoma and Spokane as his capital fund grew. It was in the latter city that he got a chance to buy the flour mill which since has grown into an international business.

### START A LIBRARY FOR THE CHILDREN.

The Bible is, or should be, the cornerstone of every library. All boys and girls should be given an early chance to know the Bible. Reading the Bible is the surest and best foundation for a liberal education. In the estimation of great scholars and teachers the Bible stands first in literary merit.

No matter what religion may be yours, or in what faith you want your child raised, you do want it to grow in whatever knowledge is considered essential for general culture. Put the Bible in your children's hands for the story feature. In reading these stories they will unconsciously absorb the style and their taste for other good literature will naturally follow. Teaching the child to like the right kind of reading matter is one of the educator's hardest tasks, if their home training has been indifferent.

Start them right at home, and start them now. It only takes a few days before you can own one of the most beautiful Bibles printed. The coupon in another part of today's paper, will tell you how easy it will be to acquire it, but it may not be so easy later on, as the offer is limited as to time, and because of the limited number of copies which the publisher considered our proportion for local distribution.

Don't impair your happiness by borrowing trouble or lending money.

## OKLAHOMA WILTS WHILE HARVEST GETS UNDER WAY BIG

OKLAHOMA CITY, Ok., June 20—Oklahoma wilted under a hot scorching sun today which sent temperatures up to record high levels for June.

The heat was causing intense suffering among harvesters in the wheat fields and many were reported overcome. In many sections of the wheat belt the farmers were working early in the morning and late in the evening to avoid the mid-day heat. Crops were not reported damaged as yet but unless the heat wave is broken by rain the grain will become over-ripe before it is cut.

At Altus, Ok., Wednesday the mercury shot up to 113. Twenty-five head of live stock in that section perished from the heat. In other parts of the state the temperature varied from 95 to 110.

No immediate relief from the torrid temperatures was foreseen by the weather experts who predicted continued fair and warm weather for tonight and tomorrow.

## What A Texan Thinks Of Japanese Anger

AUSTIN, June 19—Recent Japanese demonstrations in Tokyo, protesting against the action of the United States Congress in enacting a law excluding Japanese from this country should not be taken too seriously by Americans, suggested W. D. Hornaday of Austin, who has just returned from a year's stay in the Orient and Hawaiian Islands. "The masses of Japanese are living in filth, poverty and ignorance and know nothing and care less about what the United States has done or may do in the matter of keeping them out of this country. In such a city as Aoyka it is easy to arouse the mob spirit on almost any question and it is done frequently when only domestic matters are involved. The ruling element of Japan must know that the United States was amply justified, from economic and radical considerations, in putting up the bars against their nationals. Japan itself excludes the Chinese and no foreigner can own land in that country. For twenty years or more Australia has enforced exclusion regulations, by means of the literacy test, against the Japanese and I understand the same is true to South Africa. Still, strange to say, Japan, so far as I know never made any protest to Great Britain against such action to these colonies."

"Except in her Navy Japan has nothing to qualify her for classification as a first class power. Many well informed people think the efficiency of that country's Navy is greatly over-estimated in the eyes of the world. Economically Japan was in desperate condition before the disastrous earthquake and her industrial and business interests are now facing a crisis. The country is largely dependent upon foreign trade for prosperity at home, and during the last two years much of this trade has for various reasons been lost to her. A deluge of bank and business failures occurred last year and business embarrasments are still taking place with much frequency. Japan is the greatest press agitated country in the world. Even the so-called beauties of the islands are not what they are pictured. The winter and summer climates are miserable and almost unbearable."

Mr. Hornaday described China and the Chinese in a favorable light. He asserted that the lack of a real central government of China and the general unsettled conditions, due to revolution and banditry, business

everywhere was going on about as usual when he was there. The Chinese are a great and likable people, he declared. With thousands of years of history behind them the Chinese view with complacency the present period of political chaos. They take the view that everything will be righted in time. What are a few years of trouble in the thousands of years that make up the life of the nation? So, the average Chinese smiles and goes on about his business. They are worried more about the eternal mixing in of their affairs by Americans and other foreigners than about their own domestic difficulties."

Mr. Hornaday spent the winter and spring in Honolulu. He was joined there by his family last January and they returned with him to Austin. "The Hawaiian Islands are very properly called the Paradise of the Pacific," he said. "In no part of the world is there to be found a more delightful all-the-year-round climate than that of Honolulu. It is never too warm or too cold there. The beauties of the city and islands are indescribable. Flowering trees, shrubs and plants abound everywhere. The city of Honolulu, with its 100,000 population, is modern in every respect. Some idea of the agricultural wealth of the islands may be had when it is stated that the 250,000 acres in cultivation produce, on an average, cane

and other crops to the value of \$160,000 to every 640 acres each year.

"There are many Texans in Hawaii. They are found scattered all through the 15,000 soldiers and several thousand marines stationed there, as well as among the civilian population."

"About 45 per cent of population of the islands are Japanese," Mr. Hornaday said. "There are also thousands of Chinese, Filipinos, Koreans, Porto Ricans, Portuguese, and native Hawaiians there. They all get along harmoniously together," he declared.

Mr. Hornaday is director of publicity of the University of Texas. He was actively employed in newspaper work in the State for many years before he became connected with that institution. On his recent trip to the Orient and Hawaii he represented as correspondent a syndicate of Northern and Eastern newspapers for which he wrote a series of about one hundred articles.

It is estimated that 100 per cent of this year's graduates who expect to be made bank presidents at once will be disappointed.

WASHINGTON, D. C.—The newly instituted Trinity Masonic Lodge No. 41 was the recipient of a very beautiful token of fraternal interest on the part of William R. Singleton Lodge No. 30, which presented the new lodge with a beautifully engraved silver square and compasses; in

token of their love and esteem for their former member Charles R. Bartlett, who is the first Master of Trinity Lodge. They also bear the inscription:

"That man is great, and he alone, Who serves a greatness not his own. For neither praise nor self; Content to know and be unknown, Whole in himself."

Albert Pike Lodge No. 36 presented the new lodge with the officers' jewels.

The man who always counts on his friends seldom figures in their calculations.

## U. S. Department of Agriculture Says:

[Farmers' Bulletin No. 335]

### Baked Apple Dumplings

Make a very short biscuit crust. Mix as soft as can be handled and roll on well floured board to half an inch thick. Handle as little as possible. Divide it into squares four or five inches each; fold squares over five or six thick-cut apple slices. Bake in syrup made as follows: Melt in a deep baking pan 1 cup of Diamond Star Sugar with 2 cups of water. Lay dumplings in this syrup and bake slowly. This syrup is enough for five or six small dumplings. Serve hot. Cherries can be used instead of apples. Bake them in syrup the same way.

Save this and watch for the next

"In times of great exertion or exhausting labor, the rapidity with which it is assimilated gives sugar certain advantages over starch, and makes it prevent fatigue."

"This latter quality, which renders it more rapidly available for muscular power, may account for the fact that sugar is so relished by people who are doing muscular work and by those of very active habits, such as children."

"The American farmer ranks high among agriculturalists as a rapid and enduring worker, and his consumption of sweets is known to be very large."

## PAINT AND PAPER COMPANY MANAGER SEES BIGGER MEXIA

The News Publishing Company has just completed the repainting of its front office, giving it the entrance of much greater attractiveness than before. The work was done by the Stanberry Paint and Wall Paper Company of 113 North Sherman street. Hiram Hobbs is the manager of the concern and is an expert workman himself. In the office, he is assisted by his sons, Jesse C. and Doderick J. Hobbs. Although a resident of this place, only a few months, Mr. Hobbs and his family have won many friends. He is an enthusiast for the city already and sees a bright future ahead of it. He has therefore increased the stock of the company considerably to take care of the growing concern in a growing community.

## Million Dollar Show In Tulsa Oil Expo.

TULSA, Okla., June 20.—Cost in cold cash, more than a million!

That, according to authorities familiar with such appliances, is a very conservative estimate of the money value of the exhibits which will be displayed at the second annual International Petroleum Exposition, now being arranged for presentation in Tulsa, for a ten-days' run, beginning October 2.

All of the space originally allotted for commercial exhibits was sold out on June 6 and the management was compelled to make a quick shift in plans and begin selling space in the large building which at first was intended to house the scientific and technical exhibits and others of a non-commercial nature. A new pavilion is now planned for the last mentioned part of the show, according to the management.

An astonishing number of entirely new devices will distinguish this show. Many manufacturers are holding back new products so as to be able to introduce them to the trade and the public at the Exposition, where, it is expected, at least 200,000 oil and gas men will gather from all parts of the world.

Nearly 300 exhibitors have already taken space, the management states, and the further claim is made that this exposition is to be the largest ever held for one single industry. The exhibits will range from ponderous Diesel engines and compressors, in actual operation, down to the tiny diamonds used in core drilling.

The hardness of his way is never realized by the transgressor until he gets a real hard fall on it.

## Patterson's Column

L. D. YOUNG the Dallas EVANGELIST WHO is holding REVIVAL SERVICES talked at THE ROTARY Club yesterday—AND WHAT I mean is—he TALKED HE LOOKS exactly like a fellow THAT SOLD me a 40 volume set OF BOOKS twenty years ago AND WHICH I have almost paid FOR BUT he is not the same MAN I feel sure though if he HE CHOSE to sell anything I'll WAGER HE could put it across HE IS interesting because he HAS SOMETHING to say and KNOWS WHAT it is and more—HE KNOWS how to say it HIS WORDS jump at the audience LIKE SPARKS from an anvil and EVERY WORD carries a thought AND EVERY sentence carries an ARMPULL HE SPOKE fifteen minutes and SAID MORE than some speakers SAY IN a lifetime HIS AUDIENCE was attentive—EVEN THE "Rough Element" at THE LOWER end of the table SEEMED INTERESTED L. D. YOUNG sells the Christian RELIGION TO folks and he is PROUD OF his job like all really GOOD SALESMEN should be also HE MENTIONED a great truth THAT I have often used in MY ADVERTISEMENTS—he said THE WORD of no man is any BETTER THAN the character of THE MAN that gives it L. D. YOUNG says that a man who IS CARELESS of his duty to God AND TO his country and to THE LAWS of the community in WHICH HE lives is not a man TO DEPEND upon and L. D. Young IS RIGHT CLOSING THIS sermonette I'll SAY GO hear L. D. Young preach. AND HE will give you food for THOUGHTS IN such an interesting MANNER THAT you will imagine IT ORIGINATED in your own BRAIN AND so thinking you WILL GIVE it very careful CONSIDERATION WHICH may BE A good thing FOR YOU—It may indeed I THANK you.
